

Advertising company, specialized in Harnessing Data Insight to promote and develop customised applications for its clients, operating in Greece, Middle East (Dubai, Kuwait, Qatar, Saudi Arabia, Egypt) and Balkans, seeks to recruit an experienced Software Developer, based in Greece.

Senior Software Developer (Code ITD01):

Responsible for:

- Support and maintenance of existing applications.
- Suggesting new technology implementation methods and/or state of the art solutions.
- Design and implementation of new applications based on tight deadlines.
- Software projects analysis based on specific technical qualifications satisfying specific business requirements.
- R&D & innovation solutions.

Requirements:

- Bachelor's Degree in IT, Computer Science or relevant subject.
- At least 3-4 years of experience in application development, including software design implementation and testing.
- Development experience on .NET Framework (ASP.NET, C#, VB).
- Working knowledge of Web Services, Web API 2.
- Basic front-end skills, MVC5, Razor, Web forms, JavaScript, jQuery, Bootstrap, CSS.
- ADO.NET, MSSQL (LINQ, Entity Framework 6).
- Experience on using Version Control Systems (Git, MS Visual Source safe).
- Feeling familiar with agile methodologies and culture.
- Designing scalable software, paying attention to detail proactively.
- Proficient in English (writing & speaking).
- Military obligation Fulfilled.

Nice to have:

- Mobile Development (Android & iOS)
- .NET CMS Platforms (Umbraco, Orchard, DNN...)
- Knowledge of JavaScript frameworks ReactJS or Angular or Vue.js

We offer:

- Competitive salary, directly dependent on candidate's profile and experience.
- Remarkable working space including facilities (catering room).
- Friendly environment comprising young, enthusiastic, multi-national staff.
- Opportunities for professional learning and growth (engineering meetings, training, etc)
