

Company specialized in Database Management, developing customised applications for its clients operating in Greece, Middle East (Dubai, Kuwait, Qatar, Saudi Arabia, Egypt) and Balkans, seeks to recruit an experienced Software Developer, based in Greece.

Senior Software Developer (Code ITD01):

Responsible for:

- Support and maintenance existing applications. Suggesting new technology implementation methods and/or state of the art solutions.
- Design and implementation of new applications based on a strict scheduler and deadlines.
- Software projects analysis based on specific technical qualifications satisfying specific business requirements.
- R&D & innovation solutions.

Requirements:

- Bachelor Degree on the IT field (ex: IT, Computer Science).
- At least 3-4 years of experience in application development, including software design implementation and testing.
- Development experience on .NET Framework (ASP.NET VB.NET, AJAX, Web forms)
- Working knowledge of Web Services, HTML, javascript, jQuery, Bootstrap, CSS, XML, JSON
- SQL programmer level. MS SQL Server and/or SQLite.
- Experience on using Source Control Systems (MS Visual Source safe)
- English Language at a Very Good level (writing & speaking).
- Military obligation Fulfilled.

Very Preferable Requirements:

- Mobile Development (Android & iOS)
- CMS Platforms (Wordpress, Joomla etc.)

We offer:

- Competitive salary, directly dependent on candidate's profile and experience.
- Remarkable working space including facilities (catering room).
- Friendly environment comprising young, enthusiastic, multi-national staff.
- Opportunities for professional learning and growth (engineering meetings, training, etc)
